Hazardous Materials Routes

19-Q2

AND offers Hazardous Materials data that is based on the National Hazardous Materials Route Registry (NHMRR) of the USA. These are specific routes for Hazardous Materials, designated by various governments or safety institutions in the United States of America. Specific routes are designated or restricted for the road transport of such goods.

DELIVERY FORMATS

Shape (.shp/.shx/.dbf/.prj)

PROJECTION

The global projection system used in AND data is in decimal degrees (latitude and longitude) with WGS84 as datum, according to the ellipsoid model used for computations. The spatial reference id is EPSG:4326.

CHARACTER SET

The character-set used is the ANSI page code 1252 (latin1).

KEY FEATURES

Unique about the AND data is that all routes from the National Hazardous Materials Route Registry are linked to road segments, including all hazardous materials attributes.

TYPICAL USE CASES

AND Hazardous Materials Routes can be used to generate point to point and street-level routes, mileage and driving directions for hauling hazardous materials and dangerous goods in the USA.
